

AI Agents in HR Workflows

Where do AI agents actually fit in HR?

A collaborative workshop for HR leaders · Hyderabad

12 AUGUST 2026

CEOs are asking how AI is transforming HR. The answer will shape your agenda. Know where agents belong in your workflows — and where they do not. Build that agenda, with HR leaders from across industries.

What you walk out with

KPIs for CHROs in the AI era

The measures you will be judged on — and how AI moves them.

Case studies — AI agentic HR interventions

Real interventions: what worked, and what it took.

Reimagined HR processes and systems

Your workflows, redesigned around what AI can now do.

Tools for right decisions and implementation

Frameworks to judge what you build, buy, or leave alone.

How your day runs

1 Context 2 Deliberate 3 Present 4 Consolidate

Reimagine Your Workflows With AI Agents — agents we will examine, for example

Workforce Planning & Recruitment

Sourcing & candidate matching · Interview scheduling & coordination · Candidate Q&A assistant

Talent Management & Real-time L&D

Skill-gap & learning-path advisor · Internal mobility matching · New-hire onboarding assistant

Compensation & Benefits

Benefits navigation assistant · Compensation benchmarking analyst · Policy Q&A assistant

Performance Management

Goal-setting & feedback drafting · Review synthesis · Manager coaching assistant

Chatham House rule — what is shared in the room stays in the room. · Can't make it? Send a colleague.

Led by

Santosh Josyula
